- of **4 students**, the package of 16 lessons is **3200** Nok per person
- of **5 students**, the package of 16 lessons is **3040** Nok per person
- of **6 students**, the package of 16 lessons is **2800** Nok per person

One lesson lasts 45 min (an academic hour). Each group lesson must be a double lesson minimum (90 min), the group can have as many double lessons per week as the students wish, a minimum of one double lesson per week is required. **The invoice should be paid in full via a single transfer before the lessons start.**

A self-created group can **transfer one class only** per subscription with no loss if everyone in the group agrees, as long as the teacher is informed about the transferral of the class at least **48 hours** before the class starts.

If there is an individual in the group that cannot make it to the class, the class will sadly be lost for that person.

If the group wants to transfer the class more than once per subscription, Smart Panda keeps 50% of the class value. If the group informs the teacher about the transfer/cancellation of the class less than 48 hours before the class starts or if no one shows up to the class, the class is sadly lost for the group.
